

#### Description

A food grade, non-toxic oil developed for hydraulic systems in the food, drink, pharmaceutical and packaging equipment industries. Also for use in other applications where a clean, non-staining hydraulic oil is required.

#### Benefits & Features

- Low friction coefficient for excellent lubrication and wear reduction
- Fully synthetic to provide very wide temperature stability and extended service intervals
- Additives reduce foaming for less residue and scum build up

#### Directions for Use

For use in hydraulic systems where an ISO 22 viscosity grade is specified. Follow manufacturer's instructions and purge the system of the previous oil before re-filling. Does not contain allergens, genetically modified ingredients, nut oil or derivatives.

#### Technical Data

Category:	H1 – Lubricants with incidental contact
Appearance:	Clear fluid
Odour:	Odourless
NSF Certificate No:	132672
InS Certificate No:	1795062
Base Oil:	Polyalphaolefin
Viscosity:	ISO grade 22
Relative Density:	0.85
Solubility:	Insoluble in water
Temperature Range:	-54° to 200°C

#### Please Note

This technical data sheet is for general guidance purposes only and may contain information that is inappropriate for certain conditions of use. Accordingly, all recommendations and suggestions are made without guarantee. Further information is available from our Technical Department.
