

Description

A food grade, non-toxic synthetic oil, developed for all types of compressors used in the food, drink and pharmaceutical industries.

Benefits & Features

- Low friction coefficient for excellent lubrication and wear reduction
- Fully synthetic to provide very wide temperature stability and extended service intervals
- Additives reduce foaming for less residue and scum build up
- High degree of demulsification for greater lubrication efficiency

Directions for Use

For use in compressors where an ISO 46 viscosity grade is specified. Follow manufacturer's instructions and purge the system of the previous oil before re-filling.

Technical Data

| | |
|---------------------|---|
| Category: | H1 – Lubricants with incidental contact |
| Appearance: | Clear fluid |
| InS Certificate No: | 1796656 |
| Allergens: | Does not contain allergens, genetically modified ingredients, nut oil or derivatives. |
| Base Oil: | Polyalphaolefin |
| Viscosity: | ISO grade 46 |
| Relative Density: | 0.85 |
| Solubility: | Insoluble in water |
| Temperature Range: | -35° to 150°C |

Please Note

This technical data sheet is for general guidance purposes only and may contain information that is inappropriate for certain conditions of use. Accordingly, all recommendations and suggestions are made without guarantee. Further information is available from our Technical Department.
