

Description

Solvent Cleaner (Part of a 3 part non-destructive testing system). Part 1 is an effective slow-drying solvent cleaner used as part of the 3 part non-destructive crack detection system. It prepares the surface to be tested by cleaning and removing surface films.

Benefits & Features

- Slow drying for effective cleaning
- Suitable for use on all metals
- Excellent solubilisation of oil, grease and other organic matter
- Residue free

Directions for Use

Spray liberally from 20 to 30cm and remove all softened contamination with a soft cloth. Re-apply until completely clean and allow to dry before application of IS92 Dye Penetrant. Use also between application of Dye Penetrant and Developer.

Technical Data

Appearance:	Clear colourless liquid
Odour:	Sweet solvent odour
Contents:	Blend of naphtha, propan-2-ol and butane/isobutane/propane propellant
Storage:	Below 50°C
Flash Point:	<0°C
Relative Density:	0.725
Solubility:	Insoluble in water
Temperature Range:	Boiling point >110°C. Designed for use at ambient temperatures
